

How to Install a Program

We have created this great new feature in the district where you can install programs** without admin approval.

1. In the search bar in the bottom left corner type "software center."

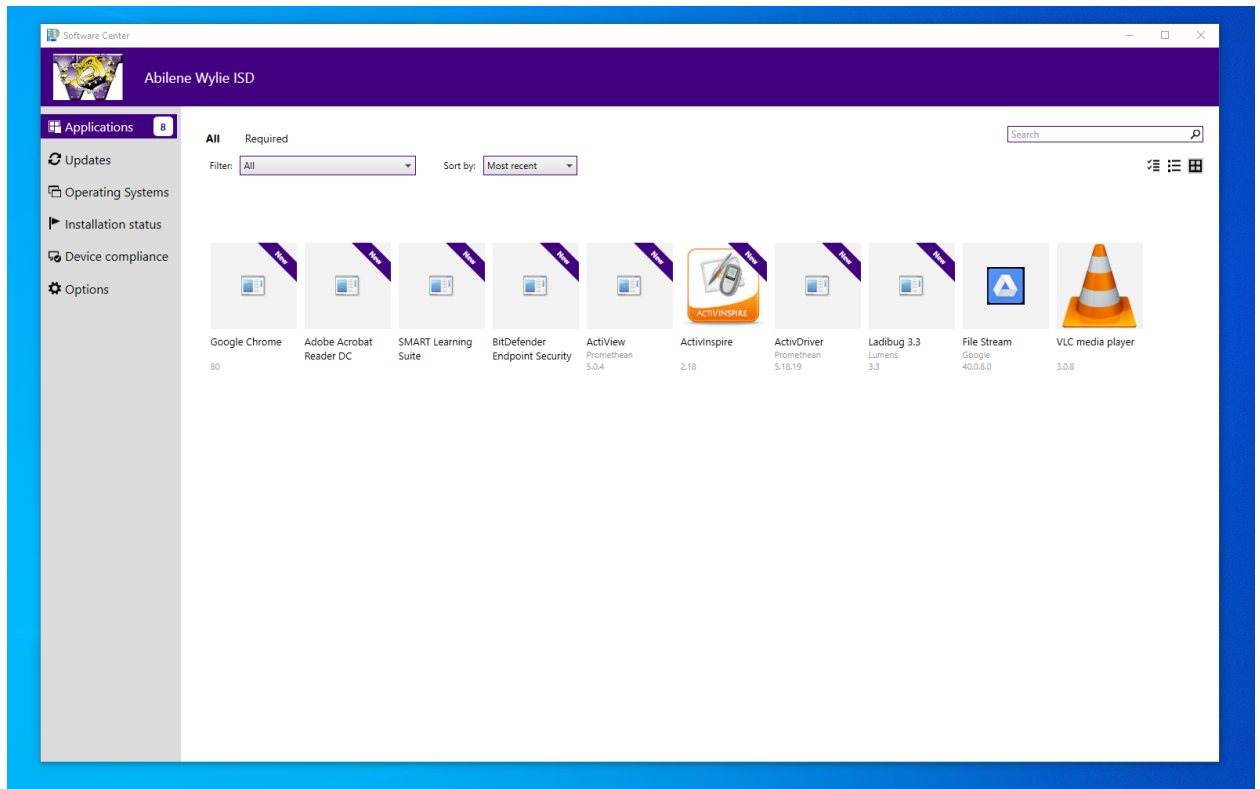

2. Click and Open the Software Center.

How to Install a Program

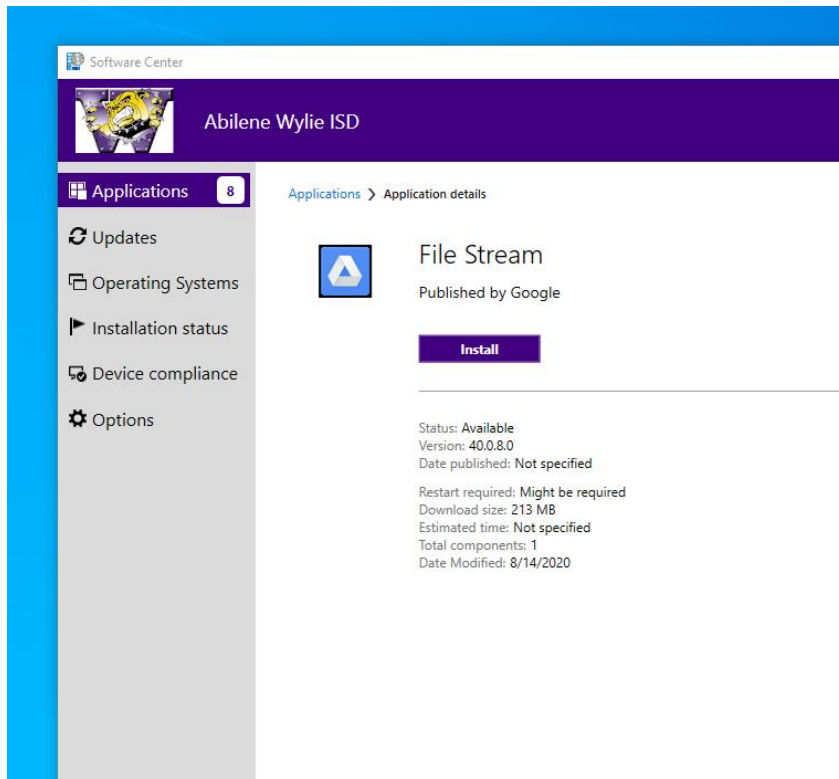

3. Find your desired program** and double click it.

***Not all programs are available. If you do not see your desired application, please submit a helpdesk ticket and it will need to be added by an Admin.*

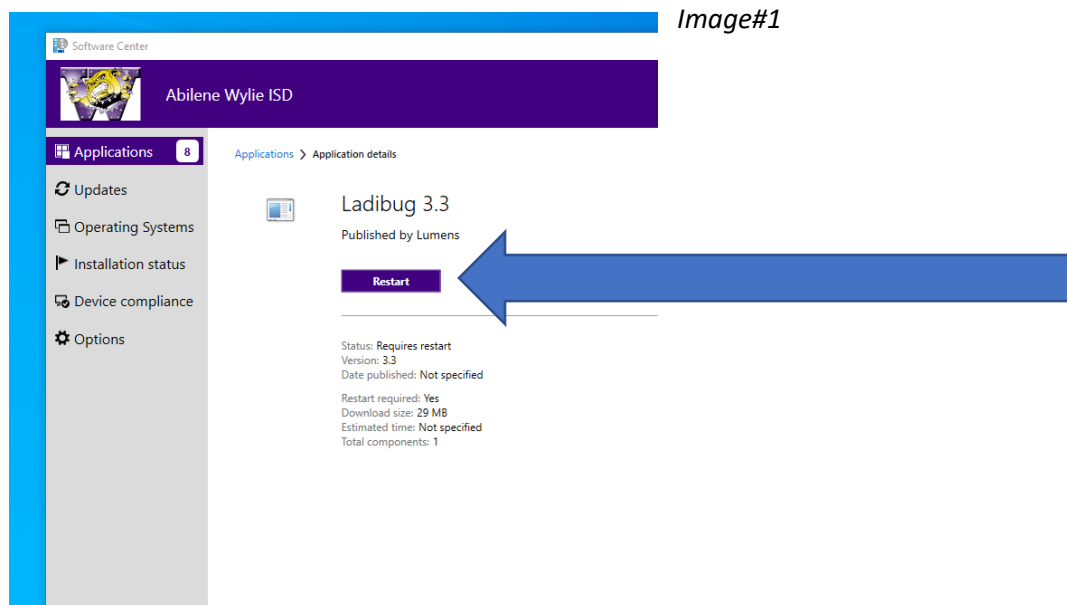

How to Install a Program

4. Click Install.

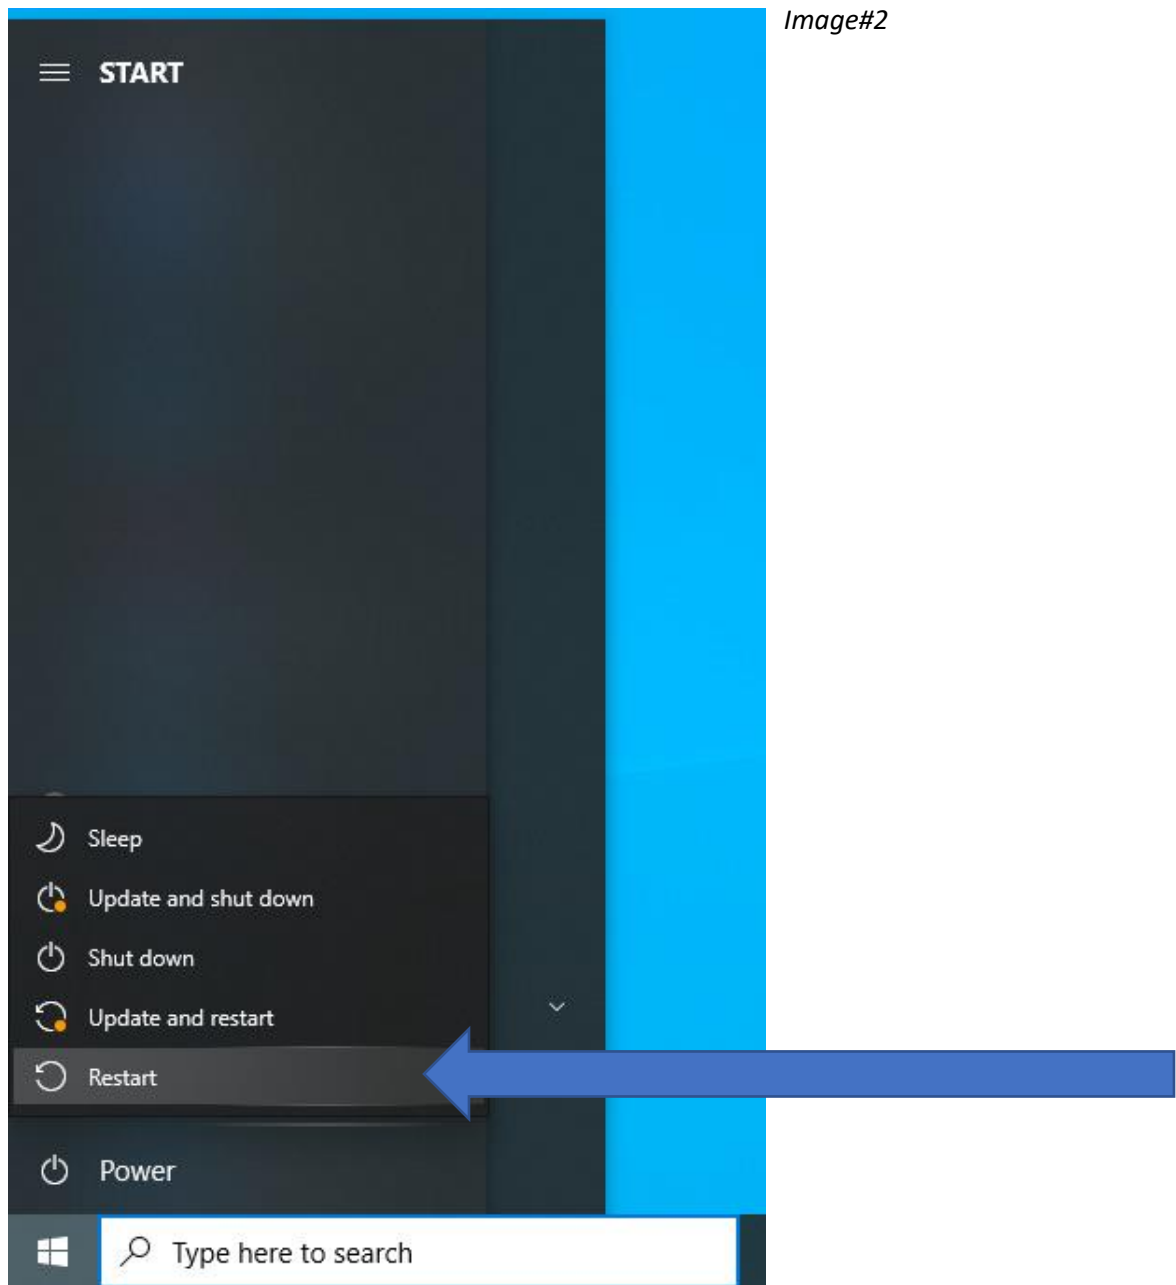

5. Restart computer for Application to take effect.

****Note**** Some applications prompt a restart inside Software Center, see *Image#1*. Some do not and will need to be restarted manually, see *Image#2*.

How to Install a Program

6. Begin using Application.
