

Seizure Management and Treatment Plan Form

This form is designed to help create a plan for managing student seizures. It consists of questions about seizure history, medications, precautions, and other considerations. This form should be completed jointly by the student's parents and treating physician and provided to the campus nurse or other appropriately identified personnel.

Student Name: _____ Date of Birth: _____ Date: _____

Parent/Guardian: _____ Phone: _____ Email: _____

Emergency Contact/
Relationship: _____ Phone: _____ Email: _____

Seizure Information

Seizure Type	Length (How long it lasts)	Frequency (How often)	What Happens During a Seizure

Known Seizure Triggers or Warning Signs

- ☐ Missed Medicine ☐ Emotional Stress ☐ Lack of Sleep
☐ Physical Stress ☐ Flashing Lights ☐ Missing Meals
☐ Illness with High Fever ☐ Alcohol/Drugs ☐ Menstrual Cycle
☐ Response to specific food or excess caffeine. Specify: _____

☐ Other: _____

VNS/Devices

Devices: VNS ☐ RNS ☐ DBS ☐

Date Implanted: _____

Magnet Use/Instructions: _____

Basic first aid to be provided during a seizure

- **STAY** calm, keep calm, begin timing the seizure
- Keep the student **SAFE**: remove harmful objects, don't restrain, and protect their head
- Turn the student on **SIDE** if not awake, keep airway clear, don't put objects in mouth
- **STAY** until the student recovers
- **SWIPE** magnet for VNS
- Write down what happened during the seizure
- Other: _____

When to call 911 – A seizure emergency for the student

- Seizure with a loss of consciousness longer than five minutes and not responding to rescue medicine if available
- Repeated seizures lasting longer than 10 minutes, with no recovery between them and the student is not responding to available rescue medicine

- Other medical problems or a pregnancy needs to be checked

Student name: _____ Date of birth: _____

Seizure Emergency Protocol for District Personnel to Follow

- Administer emergency medications
 - Contact school nurse:
 - Call 911; transport to
- Notify parent or emergency contact and doctor
 - Other:

When and What to Do When Rescue Therapy is Needed

If seizure (cluster, # or length): _____

Name of Med/Rx: _____

How much to give (dose): _____

How to give: _____

If seizure (cluster, # or length): _____

Name of Med/Rx: _____

How much to give (dose): _____

How to give: _____

Student’s Response and Care After a Seizure

What type of help is needed? _____

When is the student able to resume usual activity? _____

Does the student need to leave the classroom? Yes ☐ No ☐

 If yes, when can the student return to the classroom? _____

Is the student able to manage and understand their seizures? Yes ☐ No ☐

Special Instructions

First Responders: _____

Emergency Department: _____

Daily Seizure Medication

Medication Name	Dosage	Time to be Given	Common Side Effects	Special Instructions

Other Information

Important medical history: _____

Allergies: _____

Epilepsy surgery (type, date, side effects): _____

Diet therapy: Ketogenic ☐ Low-Glycemic ☐ Modified Atkins ☐ Other: _____

Special considerations, instructions, or precautions (i.e., school trips, activities, sports, etc.): _____
